### About This Content

The Vickers Mk.7/2 was one of the last members of the famous Vickers MBT British tank export series. It was built around the advanced Vickers turret (with a wide range of guns offered as options), combined with a modified Leopard 2 hull. A single prototype was built in 1985, but failed to attract any customers. The tank was never mass-produced but the lessons learned by Vickers from its development were used when designing the Challenger 2 MBT

In Armored Warfare, the Vickers Mk.7/2 is a Tier 8 Premium Main Battle Tank with a special “Vanquisher” British-themed camouflage, well-armored in the best Albion tradition.
